Paper Title	Pages
Enzymatic Hydrolysis And Oleaginous Fermentation Of Steam-exploded Arundo Donax And Lipomyces Starkeyi In A Single Bioreactor For Microbial Oil Accumulation Authors: Gaetano Zuccaro; Giuseppe Travaglini; Gerardo Caputo; Domenico Pirozzi	2577-2586
Data Mining Application Using Clustering Techniques (k-means Algorithm) In The Analysis Of Student's Result Authors: Adelaja Oluwaseun Adebayo; Alkadhwi Ali Hussein Oleiwi	2587-2593
Tribological Properties At The Interface Of The aluminum and aluminum oxide Authors: Ahalaptiya H. Jayatissa; Bodhi Ravindran Manu	2594-2599
Combined Effects Of Hall Current, Rotation And Inclined Magnetic Field On A Free Convection Fluid Flow Over An Exponentially Accelerated Vertical Plate With Heat And Mass Transfer Authors: Kirimi Jacob; Mark Okong'o; Sammy Musundi; Ochieng Ombaka	2600-2607
An Energy-efficient Genetic-based Algorithm For Virtual Machine Placement In Cloud Datacenter Authors: Pedram Saeedi	2608-2611
Tensile And Flexural Properties Of Common Steel Reinforcing Bars In Southwestern Nigeria For Concrete Structures Authors: Oluwole A. Olaniyi; Adeola A. Adedeji; Adekunle P. Adewuyi	2612-2617
