

Journal of Multidisciplinary Engineering Science Studies

ISSN: 2458-925X (Online)

Vol. 7 Issue 12, December - 2021

Paper Title	Pages
Computer Simulation Of The Strength Of Joints Made By 3d Printing Authors: Juraj Beniak; Peter Križan; Miloš Matúš	4129-4133
The Review Of Patented Technology Of Bridge Basin Bearings Authors: Min Zhang	4134-4139
Reduction Of Current Harmonics In 11 Kv Distribution System Using Active Power Filter And Discrete Wavelet Transform Authors: Oyare Gideon Ayegba; Akaninyene Bernard Obot; Nseobong Ibanga Okpura	4140-4143
Occupational Accidents In Agriculture And Necessary Measures Authors: Adem Özkan	4144-4146
Museum Interventions/Extensions in Historic Context: A Case Study of European Museums Authors: Naeem Abrar	4147-4155
Automatic Load Frequency Control Of Two Area Interconnected Power System With Diverse Source In Nigeria Authors: Adamu M.; Jiya J. D.; Haruna Y. S.; Isa A. I.; Abdullahi Z. M.	4156-4161
Quality Assessment Of Reinforced Concrete Structural Elements Of Some Selected University Buildings Using Ultrasonic Pulse Velocity Test Authors: Akingbonmire, S. L.; Afolayan, J. O.; Olanitori, L. M.; Ikumapayi, C. M.	4162-4169
Agriculture And Drought Authors: Adem Özkan	4170-4172
Human Extinction Crisis - Environmental Philosophy Authors: Shuichi Kato	4173-4183
Safe Use Of Tractors Authors: Adem Özkan	4184-4187
Experimental Investigation Of Influence Of Steel Fibres On The Properties Of Concretes Authors: Adekunle P. Adewuyi; Boago Thibedi	4188-4194
Experimental Verification Of Numerical Models On The Structural Behaviour Of Concretes At Elevated Temperatures Authors: Adekunle P. Adewuyi; Leungo C. Lentswe	4195-4202
